

25,871 Underwent randomization

```
graph TD; A[25,871 Underwent randomization] --> B[12,927 Were assigned to receive active vitamin D]; A --> C[12,944 Were assigned to receive placebo vitamin D]; B --> D[6463 Were assigned to active vitamin D and active n-3 fatty acids]; B --> E[6464 Were assigned to active vitamin D and placebo n-3 fatty acids]; C --> F[6470 Were assigned to placebo vitamin D and active n-3 fatty acids]; C --> G[6474 Were assigned to placebo vitamin D and placebo n-3 fatty acids];
```

12,927 Were assigned to receive active vitamin D

6463 Were assigned to active vitamin D and active n-3 fatty acids

6464 Were assigned to active vitamin D and placebo n-3 fatty acids

12,944 Were assigned to receive placebo vitamin D

6470 Were assigned to placebo vitamin D and active n-3 fatty acids

6474 Were assigned to placebo vitamin D and placebo n-3 fatty acids
